All Hail our new Queen ~ Patti Werdin

Queen Patti has been a Red Hat Honey since 2006, when friends LaVerne and Vivian talked her into attending her first Red Hat event. Queen Patti has lived in Fond du Lac all of her life and enjoys her 4 children and 6 grandchildren. Ask her about her "Chicken Little" group. She appreciates the very friendly and fun Red Hat Honeys. Patti states that she is legally blind and finds it intimidating to walk into a room and not be able to recognize faces. She asks that you please identify yourself when coming up to talk to her and asks that you don't think she's rude if she walks past you or doesn't recognize you. Queen Patti is excited about attending Red Hat events and would be most appreciative of ride offers.

Crowned at our December 15th Snowman Christmas Party at the Holiday Inn, Patti's Court is made up of: Sister Angie, Vivian Gorden, LaVerne Kabat, and Judi Walters.

Happy Birthday(s) to:

Nancy Smet ~ Feb 1st

Sharon Olson ~ Feb 11th

Audrey Mathieu - Leap Year youngster ~Feb 29th

**Please let us know your birthday
so that we may celebrate you too ☺**

Umbrella Brigade News

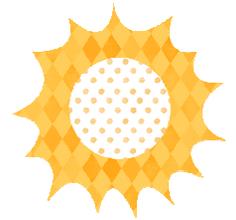

February! Do your heart a favor: laugh! Have fun with the Umbrella Brigade the week before heart day. Valentines, put on your RED hat and bring a friend or fellow Red Hat

Honey to St. Francis Home on Wednesday, February 8 at 3 P.M. Or, do you have a friend or relative there who you could bring to the chapel area for the program?

From the Sunshine Committee:

Red Hat Honey's "Get Well Soon" wishes to Barbara Lukas following hip replacement surgery (yes, she's doing well) and Donna Charneski following her recent foot surgery (Donna is now recuperating at home).

Letter of thanks from Barbara Lukas:

"Thank you" from me to all the people who sent me cards or phoned during convalescence from my hip replacement. I truly appreciate all the good wishes, prayers, positive energy and offers of help that have come my way, I hadn't realized just how many caring friends I have here in Fond du Lac and it is especially meaningful as I have no family in Wisconsin at all. I have been home from rehab just over a week and everything seems to be going well; I am looking forward to an active and pain free 2012 and getting back to my normal routines within a few weeks, BL.
