Queen Donna graciously allowed this humble Red Hat Lady of Lore a brief tele-conference with her to gather information for her Honey's possible interest.

Donna joined the Red Hat Honey's years ago after friends told her how much fun they were having. She enjoys the camaraderie and fun with our group of "great gals". Our Queen appreciates being given the opportunity to be our Queen and is most willing to help out when needed, answer questions and perform her Queenly duties. By the way, did you know that she's part of a "swim team"? She and a group of ladies meet at the aquatic center 5 mornings a week and sometimes go out to eat afterwards.

Red Hat Chorus

Umbrella Brigade News ~

In this month when we celebrate Valentine's Day, we think of our ♥ed ones - our next of kin - "kinfolk" or those with similarities who are drawn together. That's what kindred ♥s are in Fond du Lac. We will show our ♥ for those who are living together in the home at 566 Sherwood Ave as we spend some time with them on February 26. That's almost the end of the month, isn't it; but lets make every day a ♥ day, as we show ♥ to others in our words and actions.

Happy ♥ day to all of you from our  Brigade!
~ and FYI~

Future Wed. pm performance dates:

As of Jan 23, 2014 we have 57 Red Hat Honeys!

Hey, if you can't beat 'em, join 'em!!

And a chuckle:

Whew! What a relief to learn this...

Ever walk into a room with some purpose in mind, only to completely forget what that purpose was?

Turns out, doors themselves are to blame for these strange memory lapses.

Psychologists have discovered that passing through a doorway triggers what's known as an event boundary in the mind, separating one set of thoughts and memories from the next. Your brain files away the thoughts you had in the previous room and prepares a blank slate for the new locale.

Thank goodness for studies like this. It's not our age, it's that darn door!

Did I tell this to you already?
