

2018 LEAD SERVICE LINE REPLACEMENT PROGRAM

Our crews have confirmed that the water service line from the sidewalk to the meter inside your home contains lead, which can cause health problems when it leaches into the water supply.

2018 subsidy for customers is up to \$3,000 of eligible costs of replacing your private service line. In 2017, the average cost for this work was \$3,300 per water service.

On March 5, we will post a list of prequalified plumbers for you to choose from.

To be eligible for the subsidy, paperwork needs to be turned in by June 30, 2018 and work will need to be completed by December 31, 2018.

Please join us for the public information meeting for the street project:
Wednesday, February 7 – 4:00pm – 6:00pm
160 S Macy St. (City/ County Government Center), 1st Floor, Room D

For more information on this program:
Please call the Water Business Office – 920-322-3680
