

# WIS 23 corridor project Fond du Lac to Plymouth

April 2013

### WIS 23 public information meeting scheduled for April 29

The Wisconsin Department of Transportation (WisDOT) will have a public information meeting on Monday April 29, from 6:00 to 8:00 PM at the UW Fond du Lac LGI room. At the meeting, residents will be able to view refined design concepts for intersections, overpasses, and interchanges. The meeting will also have displays showing project impacts to parks and recreation areas, farmland, residences, and businesses. There will be opportunities to comment and provide feedback to project personnel. The meeting will have an open house format with a short presentation at 6:15 PM. The presentation will summarize project concepts and the anticipated project schedule. Exhibits will show the proposed jug-handle intersection at County K, the proposed diamond interchange at County UU, and the proposed diamond interchange at County G. More information on the project can be found online at

<http://www.dot.wisconsin.gov/projects/neregion/23/index.htm>

### Additional study being performed

This summer WisDOT is planning to release a Limited Scope Supplemental Draft Environmental Impact Statement (LS SDEIS). The LS SDEIS will clarify parts of the previously released 2010 Final Environment Impact Statement and reconsider impacts to parks and historic properties (called Section 4(f) resources). The document will also update the indirect and cumulative effects analysis for the project. The LS SDEIS will provide updates resulting from design refinements and more recently available data. A public hearing will be held when the LS SDEIS is released for public comment.

### Contact Information:

For more information about the WIS 23, contact:

#### Robert Wagner

WisDOT Project Manager  
944 Vanderperren Way  
PO Box 28080
