

Wise Choice Rx

The Wise Choice Rx Program helps you and your plan sponsor get the most from your pharmacy benefit plan. Through the program, a pharmacy benefit representative works with you to identify and use money saving options that are already part of your plan. Wise Choice Rx takes the mystery out of understanding your plan, and it's available at no additional cost to you.

Personalized Benefit Consultation

When you contact us, your pharmacy benefit representative schedules a time for your personalized benefit consultation. Before your appointment, the representative reviews your pharmacy benefit claims history to identify the medications you currently use. The representative then checks which programs are part of your benefit plan and determines if you can use any to pay less for your medications. During your one-on-one consultation, the representative shares the findings with you and helps you start using the programs that are right for you.

The following programs **may be reviewed** during your consultation **depending on your specific plan's benefit design**:

- *Generics*: Generics offer the same quality and effectiveness as brand name products, but are typically less expensive.
- *Preferred Products*: Medications on the Preferred Products List cost less than others you may be taking.
- *Mail Service Pharmacy*: With mail service, you may save money and get up to a 90-day supply of medications delivered to your mail box with no charge for standard shipping.
- *Tablet Splitting*: You may be able to safely split tablets of select medications to save money without decreasing how well the medication works for you.
- *Rx OTC*: Certain over-the-counter medications are less expensive and may be covered by your benefit plan.

Save Plan Expenses

Contacting Wise Choice Rx is also a good way to help your pharmacy benefit plan sponsor manage costs. The programs reviewed during your personalized benefit consultation usually **save money for both you and your plan**. By just using the money saving programs already built into your plan, you help keep the cost of providing your pharmacy benefit coverage more affordable.

Get Started with Wise Choice Rx

To schedule your personalized benefit consultation, contact Wise Choice Rx at **1.877.809.6996**. We're available Monday through Friday, 7 a.m. to 6 p.m. CT.

Information provided to you through the Wise Choice Rx Program is intended to educate you about cost savings measures under your pharmacy benefit plan. It is not intended to substitute for the professional medical advice, diagnosis or treatment of a physician, pharmacist or other health care professional. Always seek the advice of your physician or other qualified health provider regarding any questions you may have about a medical condition or a prescription.

If you think you have a medical emergency, call your doctor or 911 immediately.
