

Renew Our Waters *Every choice counts.*

RenewOurWaters.org

Thinking about a Rain Barrel?

BENEFITS FOR YOU:

- ◆ Store water from rain showers to water your garden and plants in doors and out! Rain water is best for plants.
- ◆ Reduce flooding in your yard and basement - collecting the water and using it for watering plants, slowly releasing it and allowing it to sink into the ground.
- ◆ Save money and water. Instead of water from the tap, you can use the water you collect to keep your landscape healthy - reducing your water bill!

BENEFIT FOR LOCAL WATERWAYS:

- ◆ Water stored in a rain barrel and used for irrigation is water that won't rush off and carry pollutants into our streams and rivers.

Make your choices count!

Visit a participating rain barrel vendor for special pricing on rain barrels.
