

# Join GoToMeeting via Desktop App

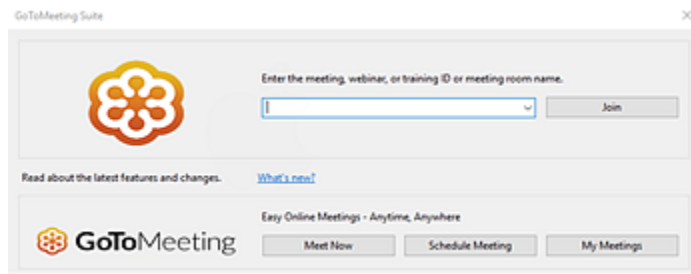

Video: [https://www.youtube.com/watch?v=G0la\\_H5\\_hE4](https://www.youtube.com/watch?v=G0la_H5_hE4)

**Important:** The desktop app will need to be pre-installed by an IT staff member. You can still join a meeting through the Web in Chrome. ***Please use the Join gotometting via Web document***

Open the GoToMeeting desktop app from the system app tray.

- To join someone else's meeting, enter the meeting ID or meeting page name and click **Join**.
- To log in to your organizer account and manage your meetings, click **Meet Now**, **Schedule Meeting**, or **My Meetings**. This will prompt the Sign In window.

## Join or start your first meeting from the desktop app

Once you have installed GoToMeeting and attempt to join or start your first meeting, you may be prompted with an additional dialog from the web browser requesting permission to open GoTo Opener.

1. Launch the GoToMeeting desktop application.

2. Join or start a meeting from the GoToMeeting Suite.
  - **To join someone else's meeting**, enter the meeting ID or meeting page name and click **Join**.
  - **To start your own meeting as the organizer**, click **Meet Now** to start an instant meeting or **My Meetings** to start a previously scheduled meeting. If prompted, sign in to your account.
3. Depending on the web browser you're running, complete the permission prompt as follows.
  - **Google Chrome** – Click **Open GoTo Opener**. Select the "Always open these types of links in the associated app" check box to avoid being prompted by the dialog again.
