

Operating Agreements

Downtown Exploratory Committee, 4.21.15

After describing the facilitation role she will play on behalf of the University of Wisconsin – Extension, Diana Hammer Tscheschlok asked the members of the Downtown Exploratory Committee to think of guidelines or ways of working together that will help them become a high performing team. The group made the following list which will be evaluated and possibly adjusted at future meetings.

- Respect each other.
- Speak one at a time.
- Be open and authentic with your opinions.
- Have enthusiasm for what we're doing.
- Come prepared for meetings.
- Decide ahead of time on how to do voting, including tie breakers if needed.
- Decide together about criteria that will be used to make decisions.
- Learn about the Triple Bottom Line framework, Lean Six Sigma, and Disney Instructor processes and consider applying them in our work.
- Everyone participates and helps each other participate.
- When it's decided, it's decided.
